SUMMARY

Third year Logistics Technology student with a solid foundation in supply chain data analytics. Completed a four month internship at Cofano, contributing to a barge fleet performance dashboard now live within the Gemadept ecosystem. Aiming to become a Supply Chain Analyst who uses data to drive decisions in forecasting, inventory and operations.

EDUCATION

Bachelor of Engineering in Logistics Technology (155 credits) **Aug 2024 to Present**
University of Economics Ho Chi Minh City (UEH) | **GPA: 3.89/4.00 (9.1/10)**
- **Track:** Data Analytics, Demand Forecasting, Inventory Management, Lean Six Sigma, AI and IoT Applications

Exchange Student (10 days), Rajamangala University of Technology Lanna (RMUTL), Thailand **Jun 2026**
- Applied research on AGV/AMR for smart warehouse operations and storage automation.

WORK EXPERIENCE

Supply Chain Analyst Intern, Cofano Software Solutions Asia **Apr 2026 to Jul 2026**
- Established the calculation logic for barge fleet operational KPIs (Turnaround Time, OTP, Ballast Ratio) from raw data to accurately measure inland waterway supply chain performance.
- Developed an interactive real time dashboard of cargo flows and vessel status, filterable by ICD, Route and Customer.
- Analysed transaction data to find bottlenecks, waste and anomalies, optimising capacity and cutting cargo rejection rate.
- Produced analysis reports and a User Guide that helped Barge Dispatch and Voyage Management teams act on data.

HONORS & AWARDS

Second Prize, Student Scientific Research Award, CTD Scholars Student Awards **2025**
- Led the IoT and Data workstream of a project applying AI and IoT to verify transparency in the clean food supply chain; built a real time monitoring dashboard and a quantitative model to forecast product shelf life.
- Designed the Level 0 data flow diagram (DFD) for the project's information system.

Top 20, SCMISSION, Logistics Studying Club FTU2 **2026**
- Analysed material, capacity and logistics bottlenecks; formulated MPS/MRP schedules, capacity based production plans and optimised distribution across multiple DCs.

Top 10 Semifinalist, Hackathon Digiport Logistics, UMT University **2025**
- Pitched a data driven barge scheduling algorithm (BOE) to ease port congestion, earning an early offer from Cofano.

Third Prize, Last Mile Delivery Optimizer, Institute of Intelligent and Interactive Technologies, UEH **2025**
- Applied quantitative models and data analytics to solve vehicle routing problems and minimise last mile delivery costs.

Scholarship Recipient, Le So Memorial Scholarship of Excellence (LSMSE), Sunflower Mission **2025 to 2028**

EXTRACURRICULAR ACTIVITIES

Vice Head of Academy Department, Vietnam Supply Chain Challenge 2027 (VSCC, VILAS)
- Directed Business Case formulation and data quality checks for a national logistics competition; coordinated cross functional teams to secure sponsorships and onboard industry mentors and judges.

Planning Department, Organising Committee, VSCC Internal Competition (VIC)
- Directed end to end event planning, from venue sourcing and timelines to onsite operations.

Project Coordinator, Kindnom Volunteer Club (VNV), Mầm Thương Project
- Managed planning, budgeting and risk mitigation for charity projects; organised scholarship award ceremonies.

SKILLS & CERTIFICATIONS

- **Data Analytics:** SQL (MySQL), Power BI, Advanced Excel (Pivot Tables, XLOOKUP, Power Query, DAX)
- **Professional:** Demand Forecasting, S&OP, Inventory Management, Lean Six Sigma, Network Optimisation
- **Soft Skills:** Project Management, Risk Management, Stakeholder Management, Team Coordination, Problem Solving
- **Language:** English (IELTS Academic 7.5, 2023), Vietnamese (Native)
- **Certifications:** Operations Research: Optimization Algorithms (NTU); Supply Chain Essentials (VILAS); Google Data Analytics Professional Certificate; Google AI for Data Analysis; Google Project Management
